

EPA-HQ-2018-008754

EPA is providing the non-confidential version of PMN P-17-0294, including all attachments. EPA is also providing sanitized communications between the submitter of the PMN and EPA. Because this PMN is still under review, EPA is withholding PMN assessment documents, such as the engineering report and Focus meeting report, under exemption 5, as they are pre-decisional and internal, deliberative documents at this time.
